## We respect your privacy

I declare that the information provided is correct to the best of my knowledge. I am aware that it is an offence to provide false check-in information.

I understand that a copy of the information will be sent to the nominated email address or mailing address and the name and phone number will be encoded into a QR code that can be read by the concierge check-in form. The content on the card is encoded to help reduce the risk of someone reading the information.

You should be able to use this card instead of manually checking in at most Clubs, Pubs, Major Stores, and larger venues where there is someone on the door to check arrivals.

However, smaller venues will unlikely have a scanning device so you might still have to sign in.

For instance, students coming to lessons in our room who do not have a Smart Phone, will still have to sign in as Compals does not have a scanner.

It is still worth getting as this card will become more widely known and businesses will be more likely to acquire a scanner.
