Why bother with CDs in this age of online music?

- **CD are a permanent record of music from the past**
- **You can RIP the tunes from a CD easily on your computer and save them as MP3 or WAV files for distribution to others or saving the tunes to your phone or memory stick**
- **When tunes are ripped to a compressed MP3 files you can copy them (burn) to another CD. More tunes per CD**
- **You can still buy good CDs at markets or borrow them from the local library.**
