under *General*: “always show meeting controls”

The image shows the Zoom application settings window, specifically the 'General' tab. The left sidebar contains various settings categories: General (selected), Video, Audio, Share Screen, Chat, Zoom Apps, Background & Filters, Recording, Profile, Statistics, Keyboard Shortcuts, and Accessibility. The main content area lists several settings, with the 'Always show meeting controls' option checked and highlighted by two red arrows. Below this, the 'Reaction Skin Tone' section is visible, showing a row of six thumbs-up emojis with different skin tones.

Settings

- Start Zoom when I start Windows
- When closed, minimize window to the notification area instead of the task bar
- Use dual monitors [?]
- Enter full screen automatically when starting or joining a meeting
- Automatically copy invite link once the meeting starts
- Always show meeting controls [?]
- Ask me to confirm when I leave a meeting
- Show my connected time
- Remind me minutes before my upcoming meetings
- Stop my video and audio when my device is locked
- Integrate Zoom with Outlook [?]
